JOB TITLE: FULL-TIME VETERINARIAN

Location: Savusavu, Vanua Levu, Fiji (aka paradise)

Who Are We

Animals Fiji is a nonprofit charity on a mission to provide a lifeline to as many animals in Fiji as possible. Currently, we operate the Veterinary clinics /services in the Western and Northern Divisions of Fiji (a human population of over 600,000), where owners can seek treatment for their pets as well as wildlife. We operate as a welfare agency operating outreach programs and clinics throughout Fiji.

Our Nadi clinic also functions a shelter taking in strays, injured and abused animals, who are treated and rehomed. Our Savusavu clinic, where the position is based, is the home base for our Northern Division operations. There is no shelter, but the Northern team travels—monthly Labasa clinic and to other various outreach community / village outreach.

One of our most critical goals is to reduce the epidemic of stray and diseased roaming dog and cat populations that plague villages, towns rural areas, through spay/neuter programs. We ensure basic—yet high quality—veterinary services and animal care education are available to as many Fijians as possible.

Who We Need

We are seeking an adventurous, upbeat, and open-minded Veterinarian to practice medicine and perform quality surgeries despite environmental and organizational limitations.

The 2-4 staff Animals Fiji Veterinarians based at our various clinics are responsible for providing professional services with excellent customer service that ensure continuous improvement of health and wellbeing for the animals of Fiji. You would do this in a friendly manner with compassion and empathy for clients, sponsors, donators despite cultural variances and language challenges.

In addition to working with the owned animals (mostly small, but sometimes large), we need someone who can multi-task and work within a small team with limited diagnostics.

Our dream Veterinarians will contribute to the process of strategic disease prevention, project planning, and at times when needed the daily administration of the clinic. Candidates must have a Veterinary Medicine Degree and be eligible to obtain a register to practice veterinary medicine in Fiji with the Ministry of Animal Health and Production. A team player willing to go above and beyond without request.

Is It You?

If you like what you see above, then read on, you could be our ideal Veterinarian:

- Appreciates a multi-cultural and multi-lingual work environment
- Can tell a good joke, especially about yourself
- Has a phone full of gross pictures (of cases & surgeries) so you can geek-out with other Vets
- No matter how long or short you have been a Veterinarian still keen to learn
- Sick of 1am emergency phone calls about an owner finding 1 single flea on their dog & want to make a real difference in animal welfare

Up For The Challenge
